

## Navigating The Global Art Markets

Art World Forum proudly presents *Navigating the Global Art Markets*. This exclusive ticketed full-day conference will bring together the leaders in the fields of collecting, investing, presenting, and curating and will be held on **Tuesday 18 October 2016** at the **St. Regis Hotel, Singapore**.

Art World Forum aims to bridge the art world and business and investment by providing an international platform for industry experts and opinion leaders to address the latest challenges and opportunities faced in the Contemporary Art market. Whether you are a collector or an investor, or a property developer, an art consultant, or a luxury fashion house, we welcome your expertise, encourage your participation, and seek opportunities to collaborate. We encourage a strengthened international art business community to promote the open exchange of ideas and information.

Delegates will have the opportunity to network with leading experts in the art industry from Asia and around the world, learn about how the art market interacts with business and investment and develop key business relationships that may lead to future business opportunities.

Through a selection of presentations and panel discussions leading experts and practitioners will address local, regional and global contemporary issues in an effort to understand who are the key players influencing the global art markets, where the market is heading, and what trends we need to be aware of.

Our theme, *Navigating The Global Art Markets*, reflects the range of participating bodies within the industry, their varying dynamics and the relationship the market has with its benefactors. Targeted topic discussions will include the emergence of the online art market and its impact, the new buying habits of emerging and established collectors and art investors, art as an asset class, and the corporate value of art.

Organised in Singapore, a prospering art cluster in Southeast Asia and the host country of the Singapore Biennale 2016, we hope you can join us for our inaugural Art World Forum event. If you want to meet the decision makers and trend-setters of Contemporary Art in Southeast Asia, Art World Forum is where to be on 18 October 2016.

Please note members of the press are free to attend upon registration.

### About Art World Forum

Art World forum is a newly established initiative based in Singapore which emerged in response to a niche within the industry, catering for art business conferences and its professionals. Referring to the limited availability of global platforms for open discourse, and a firm lack of transparency within the market, the initiative aims to bridge the art world and business sector and pursue the opportunity of welcoming leading experts to share experiences and network. Its overall goal is to build an arts-led community, and to promote the exchange of content on what is emerging as 'contemporary' within the industry.
